

Empower Your Classroom with the Model of Instruction for Deeper Learning™ Teacher Suite and Toolkit

Your Guide to Student-Led Team Learning

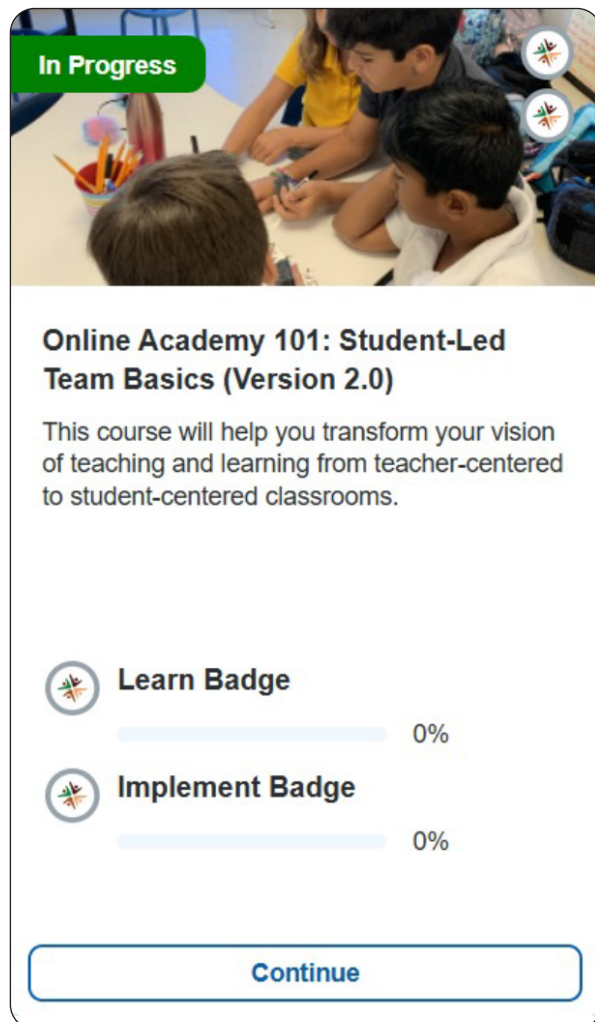

The **Model of Instruction for Deeper Learning (4DL)** empowers you to enhance engagement, improve behavior, and address achievement challenges in your classroom by introducing student-led team learning for rigorous Tier 1 instruction.

The **4DL Teacher Suite and Model of Instruction for Deeper Learning Toolkit** provide step-by-step guidance, professional learning, resources, and tools to support implementation.

4DL Teacher Suite

The comprehensive 4DL Teacher Suite includes online professional development courses and additional tools to support your transition to student-led team learning such as:

- **Standards-Aligned Task Library:** Access a collection of lesson plans designed for student-led team learning.
- **Collaborative Educator Community:** Join an interactive network of educators implementing the Model of Instruction for Deeper Learning.
- **Digital Badges:** Recognition for expertise can be gained by completing courses, potentially translating to professional development hours.
- **Implementation Progression:** A roadmap for planning with clear goals, student evidence, and teacher actions to track goal achievement.
- **Downloadable Toolkit:** A black and white version of the toolkit is available for download.

Model of Instruction for Deeper Learning Toolkit

The Model of Instruction for Deeper Learning Toolkit equips you and your students with ready-to-use, durable resources that foster student-led collaboration and rigorous learning. Designed to establish effective classroom routines, the toolkit includes:

- **Summarizing Thinking Guides (16):** *Summarizing Thinking Guides* provide structured steps to help teams discuss and synthesize individual ideas into a cohesive summary, ensuring equal participation and a shared understanding of the content.
- **Summarizing Mats (8):** *Summarizing Mats* help students develop their own thinking, share their thinking with their team, and create a summary together.
- **Role Cards (32):** *Role cards* create individual accountability for students to participate with their team and engage in productive conversations.
- **Agree/Disagree Cards (30):** *Agree/disagree cards* help students listen, take turns, and respond respectfully to each other's thinking.
- **4-Steps to Help Students Learn the Standard:** *The 4-Steps* support shows teachers how to create team tasks aligned to the standard and facilitate equal contributions from all students.
- **Forming Student Teams (5):** The *Forming Student Teams* resource helps teachers ensure student teams are well-balanced and best organized for specific tasks.
- **What If... Try This...:** *The What If...Try This...* helps teachers troubleshoot common issues within student teams to ensure productivity.
- **How To Guides:** *How To Guides* are teacher resources provided to guide and support the implementation of a given tool or structure.

Transform your teaching with tools that foster deeper learning and collaboration!
