

Dear

I wanted to share some information about Instructional Empowerment's *Model of Instruction for Deeper Learning (4DL): Teacher Suite and Toolkit*. It is a collection of digital and physical resources designed to help teachers enhance student engagement, achievement, and behavior while equipping educators with tools to create meaningful, student-led learning experiences.

At the core of the Model of Instruction for Deeper Learning is student-led team learning, where students collaborate in interdependent teams with clear roles and responsibilities. Embedded teaming structures ensure equal participation and accountability, fostering critical life skills like self-regulation and collaboration. The resources also help shift my role from teacher to coach, empowering my students to take more ownership in the classroom. This will be an exciting shift for us all!

The *4DL Teacher Suite and Model of Instruction for Deeper Learning Toolkit* contains a bundle of resources to help shift my classroom practices, including:

- **4DL Teacher Suite:** Online self-paced, professional learning courses, planning resources, standards-based tasks, membership in a collaborative online educator community, and digital badges to recognize my achievements and growth.
- **Model of Instruction for Deeper Learning Toolkit:** Physical, ready-to-use classroom materials for students and teachers that can be used across all subjects and grade levels, establishing routines for student-led learning from day one. There are enough laminated student resources for a class of 30.

The cost is \$449, which includes subscription to the 4DL Teacher Suite and lifetime ownership of the Model of Instruction for Deeper Learning Toolkit. Is it possible to obtain funding for this initiative?

These resources align with our goals to enhance instructional practices, foster rich student discourse, and improve classroom engagement. I believe it will make a lasting impact on my teaching and our students' success.
